D 3.10 Lifelong Learning – MOOC

Sustainability and the film industry – Massive open online course

This MOOC was written by Dörte Schneider Garcia, teacher at Lusófona University, Lisbon. Dörte Schneider is not only the first Green Consultant in Portugal, but also – together with Tobias Frühmorgen - coordinator of a 6 month life-Long-Learning-course about “Sustainability in the Audiovisual Media”. The MOOC was designed for total beginners in the field, providing an insight into what is at stake in climate change, and what the audiovisual industry can do about it.

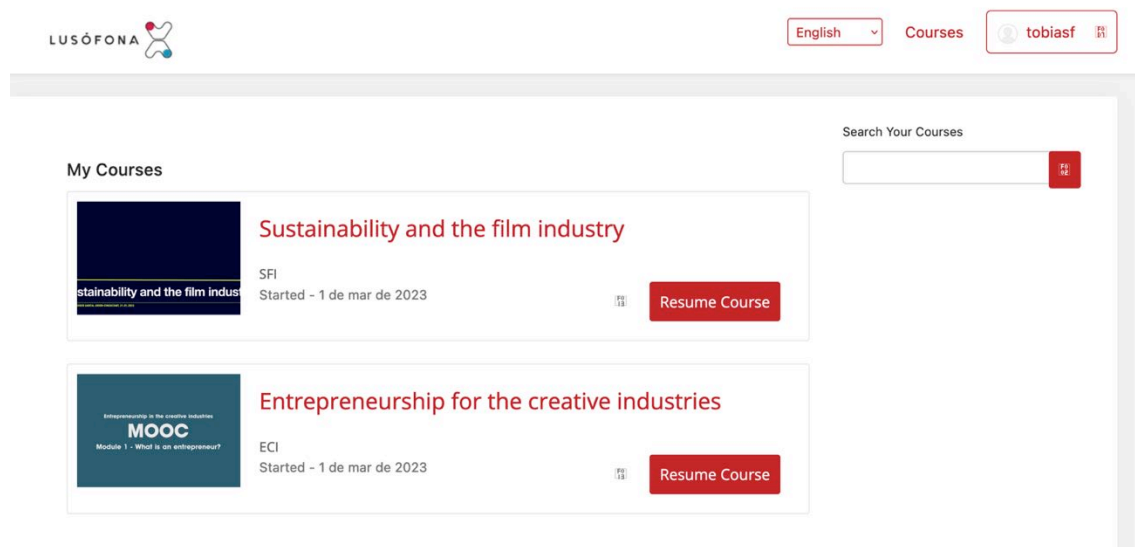

The course is made of 3 videos of 10 mins length each, together with a documentation on the subject, followed by a short questionnaire about how the MOOC was found, used and its helpfulness overall.

The course went online on March 1, 2023 at the Lusofona X platform.
